Today, I'm a student of the Laurea Magistralis in Economics, at the Università degli Studi di Bologna (Italy).

Academic curriculum

- 2008, September: bachelor degree in Mathematics (grade 110/110), at the Dipartimento di Matematica di Pisa, with the dissertation *Alternanza, parallelismo e complessità* (“*Alternance, parallelism and complexity*”); advisor: prof. Alessandro Berarducci;
- 2008, April 24th to 26th: participation in workshop “Non-classical Logics: from Foundations to Applications”, at De Giorgi Center, in Pisa;
- 2004 Diploma (high school qualification) in classical studies at Liceo A. Mariotti (Perugia) (grade 100/100);

Language knowledge

- Italian: mother tongue
- French: excellent fluency in speaking and writing
- English: very good fluency, (IBT) Toefl test passed with grade 112/120
- German: very basic reading and listening skills

Informatic skills

- Strong knowledge of GNU/Linux systems, experience as server administrator;
- Deep experience with Python programming language and with Gtk+ graphic libraries; good skills in other languages, such as C, Php, Haskell, Povray, Fortran;
- Very good knowledge of \LaTeX , professional software for text processing;
- I realized several websites, among which figures the SELP (Seminario di Logica Permanente, “*Permanent Logic Seminar*”) one;

Working experiences

- 2008 Part-time programmer in Python, employed in the development of a graphical user interface for databases management.
- 2006,2007,2008 Tutor in divulgative mathematic stages for medium and high school students, as part of projects PORTA and Pianeta Galileo.

Other activities and interests

- I'm an active member of SELP (Seminario di Logica Permanente, "*Permanent Logic Seminar*"), a group recognized and supported by AILA (Associazione Italiana di Logica e sue Applicazioni, "*Italian Association for Logic and its Applications*");
- I'm maintainer, for the distribution GNU/Linux *Debian* (and by consequence Ubuntu), of some packages, among which figures *gwb*, a waves and vibrations simulator, written by myself as a university assignment;
- Former member, during 9 years, of AGESCI (main Italian Scouting association), I also had experiences in the staff for groups of boys and girls of age ranging from 8 to 16;
- I regularly collaborate as volunteer, since 2005, with Casa Santa Chiara, in Bologna, which operates in favour of people with disabilities;
- In the last years, I've been actively promoting Open Source Software; I am a member, and have been a consellour, of the Pisa Linux User Group (GULP), where I have been responsible in the organization of several public events;
- Passioned by music, I sing or sang in several choirs; among them, the *Coro Galilei* of Pisa's *Scuola Normale*, the *Jeux de Voix* ensemble in Pisa, the Florence *Opera Festival* choir and the group *Cantus Anthimi*, under the direction of maestro Livio Picotti. I also like to play guitar, piano, violin, percussion instruments and others;
- I have a modest experience in developing simple electronic circuits devoted to audio processing,
- I'm member of *Libera - Associations, names and numbers against mafias*.
