pandas has bugs

A screenshot of the GitHub repository page for pandas-dev/pandas. The repository name is displayed at the top. Below it, there are tabs for 'Code' and 'Issues'. The 'Issues' tab is selected, showing a count of 1,850 issues. Below the tabs, there is a search bar with the filter 'is:issue is:open'. At the bottom of the screenshot, there is a summary bar showing '1,850 Open' and '7,957 Closed'.

(quite a bit of them)

... but this talk is *not* about pandas bugs.

Disclaimer - ctd.

This talk is not *even* about (necessarily) wrong design decisions
